## **WE'VE GOT TROUBLE**

I know, I know – you've already paid your dues for the year 2004, but I also know out of 448 folks on our mailing list, only 191 are actually card-carrying, bona-fide, paid-in-full members. If you're one of the 191 and you don't know why you're reading this, let me explain. I haven't figured out how to break out those who have paid their dues and those that haven't. Please remember, I'm still learning how to make this infernal machine operate! So, good friends, help the NPTA continue to be a voice in the world's piano industry. If you haven't paid this year, please do so today!
